

Overview of Cloud-Based ACT! Hosting Services

AspenTech provides cloud-based ACT! hosting services for real-time web-based access as well as offline synchronization users. We keep all of your users on the same page, sharing the same ACT! database, no matter where they're working today. And we do all of that with no server or network investment on your part.

All of your data is housed in a certified, collocated data center, so you don't have to worry about any type of disaster taking you offline. The system also provides nightly backups, nightly database maintenance, and emergency support is available.

Whether your business is local, global, or anywhere in between, our cloud-based ACT! hosting services can make your CRM system a success. Call us at 866-880-4ACT (4228) and one of our Certified ACT! Consultants and Trainers would be happy to discuss your needs.

Sample Configuration
