

ACT! Compatibility With Windows Vista, Microsoft Office 2007, and Internet Explorer 7

Sage Software has announced its plan for ACT! compatibility and support with new releases in the Microsoft product line. As your trusted advisor for all things ACT!, we want to make you aware of that plan in order to assist you in making well-informed technology decisions.

Windows Vista

ACT! by Sage 2007 is compatible with Windows Vista but with a corresponding hotfix and an extensive list of known issues. Please contact us (eSource@aspen-tech.com or 866-880-4228) if you are interested in using ACT! by Sage 2007 with Windows Vista.

ACT! Premium for Workgroups, ACT! Premium for Web, and all other ACT! products (accounting links, handheld links, etc.) will not be compatible or supported on Windows Vista until ACT! 2008 (10.0) which should be available in September 2007.

Microsoft Office 2007

No ACT! products are currently compatible or supported with Microsoft Office 2007. Microsoft Office 2007 compatibility and support will be available in ACT! 2008 (10.0).

Internet Explorer 7

ACT! Premium for Web 2007 users requiring compatibility and support for Internet Explorer 7 will have an update available to them in Spring 2007. This will be the ACT! Premium for Web 2007 9.0.1 Update.

Support and compatibility for Windows-based ACT! users (ACT! by Sage or ACT! Premium for Workgroups) will be available in ACT! 2008 (10.0).

For any additional information, system requirements, and a list of known issues, please visit www.act.com/vista2007.
